

# Chesapeake Region Lace Guild

Where lacemaking lives on

## CELEBRATE WITH US!

On April 28, 2018, the Chesapeake Region Lace Guild will be celebrating 40 years of making lace as a guild. Please join us for this momentous occasion. The event will be held at the Sherwood Community Center in Fairfax, Virginia.

We should all be proud of our involvement in keeping the art of making lace relevant and in supporting the creation and continuation of the guild. CRLG is an organization completely made up of volunteers. In order to continue as a viable entity, it is imperative that the membership volunteers, demonstrates, and participates. You can be a director on the Board, contribute to the Constant Contact newsletter or be an 'on-call' volunteer for project specific opportunities. Time and talent are the bookends to a successful organization.

In trying to organize this event, the Board realized that there is a huge deficiency in the knowledge of the history of the guild. That issue needs to be rectified if we are to leave our mark in the area of lace making. It would be great if the membership would look and see if they still have notes, old newsletters, or any historical documents that would give us an idea of where we've been as a guild.

Join us on the 28th. We will have a catered lunch (RSVP with payment is therefore obligatory), a wonderful program titled, "CRLG: Our Stories" highlighting four members who will recall the impact of their decision to embark on the journey of making lace. The supportive Holly Van Sciver, will be our vendor and we will all be able to enjoy the company of each other around our banquet tables.

The long awaited registration form is below. Hope to see you at the Community Center.

Live, love, lace,

Arlyn, CRLG Board President

Holly Van Sciver will be the vendor with lots of supplies and pattern books for lace-makers. Shopping is always one of the highlights of our lace days

and we appreciate Holly making the trip twice a year to be with us!

One of the tatted lace squares that your editor made and sent off to Brussels for the international project to cover a monument in tatted pink squares, more information [here](#)
